## About me

I am a creative, driven front-end engineer with a talent for adapting and quickly developing solutions to problems. I completed my Bachelor of Science in Cyber Forensic & Security with a minor in Web & Game development from Marshall University as a full-time student-athlete. I am passionate about building functional and enticing web applications. I am looking for the right opportunity to shape me into the developer I want to become and also in life.

## Experience

- **Game Master** The Lost Escape Room March 2023- - June 2023
  - Developed fun and exciting games for customers, while using excellent communication and interpersonal skills.
  - Proven ability to troubleshoot and resolve gaming issues quickly and efficiently.
- **Software Engineering Internship** Publicis Sapient May 2022- August 2022
  - Developed an Ad Manager application using HTML, CSS, JavaScript, and Java SpringBoot while deploying on Azure Kubernetes Services.
  - The website features a custom responsive design and accessibility for all users.

## Projects

### Weather App

- Developed a simple weather app using HTML/CSS and Javascript, Github Repo [Here](#).

### Add-to-Cart App

- Built an add-to-shopping cart web application that looks like a mobile application using HTML/CSS, Javascript, Firebase DB, and deployed on Netlify, GitHub Repo [Here](#).

## Certifications and Skills

FreeCodeCamp:

- **JavaScript Algorithms and Data Structures Certificate**

Harvard

- **Introduction to Computer Science Certificate**

Scrimba:

- **Frontend Career Path**

Skills:

- **HTML, CSS, Bootstrap, JavaScript, PHP, ReactJS, GIT**

## Education

- Bachelor of Science In **Cyber Foensic and Security** Marshall University 2018-2023
